DETAILED ACTION

Priority

1. Acknowledgment is made of applicant's claim for foreign priority based on an application filed in Japan on 10/2/2003. It is noted, however, that applicant has not filed a certified copy of the 2003-344422 application as required by 35 U.S.C. 119(b).

Claim Objections

2. Claims 4-8 and 10-14 objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim should refer to other claims in the alternative only and/or cannot depend from any other multiple dependent claim. See MPEP § 608.01(n). Accordingly, the claims have not been further treated on the merits.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-3 and 9 are rejected under 35 U.S.C. 102(b) as being anticipated by Mizuno et al. USPN 5876325. Mizuno discloses an operation input device having a first movement detection unit 3 for detecting the position and/or attitude of a first operation input unit; and a second movement detection unit 4 connected to the first movement

detection unit, for detecting the position and attitude of a second operation input unit (Abstract, Figure 1, col. 9, lines 14-17). The device further comprises an armrest unit, P and Q and movement detection units 16, 17 for detecting the position and attitude of an operation input unit with a part corresponding to the wrist of the operator.
